Product Description

Description

This is a high-quality 1 Watt SMD LED. These LED’s consume very low power and emit much intense bright light. There is a built-in heat sink at the bottom. This Led is suitable for PWM and it is fully dimmable. The LED Bead is the fundamental element of a high-power LED module. The Bead is designed to be mounted to a heat-conducting surface to draw away excess heat from the LED. See our complete assortment of LED Bead aluminum base plates, heat sink, and accessories. They are extremely bright, many times more than a 5mm LED, and generally produce a wide angle of light disbursement which can be narrowed through the use of an external lenses. **Pin Configuration**

Pin Name Description

- Anode Positive terminal
- Cathode Negative terminal

SPECIFICATIONS

LED Shape	Round
Emitting Colour	White
Power	1 Watt
Operating Voltage	3V-3.4V DC
LED Type	SMD

Product Description

Features:-

- Excellent Quality

- Short Circuit, Over Voltage & Over Current Protection
 - Incredibly Low Fault Rates
 - No Minimum Load
 - This power supply is a regulated Center Positive power supply
 - It's plug design is for Indian power socket so, no plug converter is required
 - Compact size & light weight
 - High Reliability
 - Regulated Stable Voltage
 - Good quality SMPS Based Adapter
 - Stabilized Output, low ripple & low interference
 - Single Output Voltage
 - High Efficiency & low energy consumption
-

Specifications:-

- Input - 100-240 VAC 50/60Hz
 - Category - Switch Mode Power Adaptor (SMPS)
 - Output Type - DC
 - Output - 12Volts 1Amp
-
